Hospitalizations, Surgeries, Procedures, Medical Implants

Implanted Medical Devices: You do not need to print this page if you have no implanted devices.

It is important to be aware of any implanted medical devices. Implanted medical devices include, but are not limited to pacemakers, joint replacements, heart valves and nerve stimulators. It is also important to know the ID number or serial number for the device. Make it a priority to know any restrictions you have after the implant is placed, and how long that restriction should be followed.

Hospitalizations, Surgeries, and Procedures: Start with one page, print more as needed.

Fill this page out with the date range of hospitalization, reason for hospitalization, and any notes about the stay. This can be helpful since people often do not remember much about a stay in the hospital. Also, include dates and reasons for surgeries and procedures (like biopsies). If you prefer, you can keep a separate page each for hospitalizations, surgeries, and procedures.

Implanted Medical Devices

(Pacemaker, Nerve Stimulator, Heart Valve, Joint Implant, etc.)

Implanted Device	<i>Example: Pacemaker</i>
ID Number	<i>Example: 111111111</i>
Date of Procedure	<i>Example: 8/18/2025</i>
Reason for Implant	<i>Example: Symptomatic bradycardia (low heart rate with symptoms)</i>
Restrictions/Notes	<i>Example: Do not lift more than 10 pounds for 6 weeks after the procedure.</i>
